

BELARUSSIAN NEWS

MARCH 2020

On 22nd February Olga sent this photo with a message:

I visited Brest with a group of Guides from Zhodino and Borisov - it was lovely to meet Guides from another region especially on such a day.

In Belarus they called Thinking Day THE DAY OF REFLECTION and is one of the days new Guides make their Promise - the other being at their annual camp.

Olga also added the message:

Happy Thinking day and greetings to everyone!

They also made the local TV news showing the girls activities - good PR piece for them organised by Aryna.

It is good to hear that new Units are being formed in another Region, and most of the girls are wearing the green uniform shirt as well as the necker, great progress on their part.

At the County Training Day in February Sarah Garvey produced an excellent display recording every day of the group visit in 2019. She had also had a video made and this was played over and over. A great piece of publicity for those in the County unaware, or who know little, about the Link. Surplus badges from the Group visit were also sold and forms for people to sign up to the County fund-raiser - the 100 Club - were available.

A large amount of craft materials had been donated (beads, bead thread, aida cross stitch material and small kits, card) and 5 parcels were sent out to be shared among all Sections. At the time of writing this information 2 of them had been received and Natasha's response was:

We got your hug. Great workshop materials - with a thumbs up sign. Parcels seem to be getting there much quicker and mostly unopened by Customs.
